

castus is a leading global supplier of transfer systems for the sterile and rapid loading and unloading of isolators. To strengthen our team, we are looking for an immediate

Automation engineer / Automation technician (m/w/d)

This will make you grow

- Exciting international projects in special plant engineering for the pharmaceutical industry
- Partial project management in the development of a demo plant
- Independent planning of development projects and programming for trade fair products
- Support with IQ (Installation Qualification), OQ (Operational Qualification) and troubleshooting
- Troubleshooting for existing installations
- Document creation (URS, qualification documents, guide for customers)

This will move us forward

- You have completed a technical degree in automation, production engineering or similar; alternatively you have completed training as an automation technician
- You are familiar with these tools:
 - Programming languages: SCL, FBD (preferable, but not mandatory C++, HTML)
 - Interfaces/programs: TIA V17, CoDeSysV2
 - Visualizations: Zenon, WinCC
- Structured and independent work is a matter of course for you.
- You communicate easily in English with our international customers.
- Ideally, you already have professional experience in this field and can support our young team with your expertise.

That is why castus is a great place to work

- You want to create, not just execute – at castus there is plenty of room for initiative, your ideas will be heard!
- You need security - we offer you a future – proof job after the probationary period!
- You are bored with a constant working day – here every day is different and challenges you anew!
- Bureaucracy slows you down – with us you have your own area of responsibility, we give you space for your personal development!
- You don't want to be a number – our team is looking forward to meeting you. Be a part of our family!

On the way top with castus!

Are you looking for a new challenge?
Then send us your informative
application with your salary expectations
and earliest starting date.
